

## ICME 2012, Seoul について

来年度韓国ソウルで開催される International Congress on Mathematical Education (ICME) について、ICMI 事務局から、以下の連絡がありました。

詳しくは会員向けのページ [http://mathsoc.jp/for\\_member.html](http://mathsoc.jp/for_member.html) の「ICME 2012, Seoul について」をご覧ください。

(理事長 記)

Dear ICMI Representatives and Chairs of ICMI Affiliate Organizations

The next International Congress on Mathematical Education-ICME will be held in Seoul, Korea, on July 8-15, 2012 and ICMI has produced a Press Release to announce the main features of this congress, under the headlines "Worldwide trends in mathematics education research and practice at all levels" and "Improving the quality and professionalism of mathematics education through international cooperation, research, and exemplary cases".

We ask that you disseminate this Press Release as widely as possible to mailing lists, associations, newspapers, science journals, etc. I am sending here two versions, a word version and a PDF version.

I want to call your attention also to the new issue of ICMI News that came out today, number 18b, a special number with a summary of all the call for papers for the TOPIC STUDY GROUPS of ICME-12. We ask that you disseminate also this news to all people interested in mathematics education, whether they are mathematics educators, mathematics teachers or mathematicians.

It can be found here:

<http://www.mathunion.org/pipermail/icmi-news/>

Thank you very much for your cooperation.

Cordially,

Jaime Carvalho e Silva  
Secretary-General of ICMI
